Description of Focus: The mission of FirstLine Schools is to create and inspire great public schools in New Orleans.

We do this by directly operating non-selective public schools and by developing training programs for teachers and school leaders across New Orleans.

Our schools prepare students for higher education and fulfilling careers by:

- Ensuring high achievement for all students.
- Providing a rich variety of educational experiences to nurture students' social and emotional development, love of learning, and aspiration to achieve their educational and career goals.
- Developing the skillfulness of our staff and creating sustainable working conditions that facilitate their success.

FirstLine Schools currently operates two K-8th grade schools, S.J. Green Charter School and Arthur Ashe Charter School; two professional development programs, Xavier Math Fellows and Leading Educators; and an enrichment program, The Edible School Yard. The organization expects to expand both by adding additional schools and by developing new programs.

FirstLine Schools takes the charge of closing the achievement gap seriously. We support, develop and hold accountable our students, staff and administration for high student academic achievement and quality programming.

To be successful: Are you an accomplished teacher dedicated to New Orleans' students? Do your students come to school struggling yet leave your class confident and academically successful?

Is your classroom a nurturing and aspirational place where students love learning?

Do you seek a school as committed as you are to providing all students with an outstanding education?

Are you looking for colleagues who support and challenge you to grow as a teacher?

Then we want YOU to teach at FirstLine Schools!

Why teach at FirstLine Schools?

FirstLine Schools is committed to three things:

1. Ensuring high achievement for all our students.
2. Providing a rich variety of educational experiences to nurture our students' social and emotional development and love of learning.
3. Developing our faculty's skillfulness and creating sustainable working conditions that facilitate our teachers' success.

Our faculty is a diverse and talented group dedicated to our students' success and to their own growth as teachers. Our schools are led by administrative and curriculum leaders who hold themselves accountable for student achievement and teacher development.
